

AUTOMOTIVE & MOBILITY

WE KEEP THE WORLD MOVING

Cushman & Wakefield's Automotive & Mobility Group is a leading provider of consulting and real estate expertise to the automotive and mobility industry. We understand the unique challenges and opportunities of the industry's shift to electric, connected and autonomous mobility solutions. Our multi-disciplinary team of consultants spans North America and has on-the-ground, proven experience in automotive manufacturing and technology hubs. With a collaborative approach and diverse expertise, we provide a full suite of integrated real estate solutions to address the entire supply chain, from R&D to final assembly and aftermarket support. Together with our clients, we are supercharging the evolution of automotive mobility.
